Harding Refuses to Aid.

Washington, Aug. 5.—Headquarters of the National Woman's Party announced last night that alarm over the suffrage ratification prospects in Tennessee and reported defections of Republican members of the Legislature have caused renewed appeals from influential Republicans that Senator Harding, the party nominee, use his influence with the Legislature.

Senator Harding, however, continues to refuse to exert his influence. In response to a telegram from the Harding and Coolidge Republican League of the District of Columbia, pointing out the difficulties in Tennessee and urging him to appeal to Republicans of the Legislature, he wired:

"You can understand why I cannot consistently urge Tennessee legislators to vote for ratification without knowing their reason for such commitments as they have made. The situation is being reported to national headquarters where it will be given attention at once.

TRUTHFULNESS WINS BRIDE

New York, Aug. 5.—Frankness in admitting to a pretty welfare worker that he was guilty of impersonating a naval officer resulted in Clifford W. Weyman, of Brooklyn, winning a bride.

When Weyman was arraigned yesterday before Federal Commissioner McGoldrick he was accompanied by his wife of one day, who was Miss Diana Scheer, 19 years old. Mrs. Weyman said she met her husband when he was arrested at Coney Island a week ago.

"I asked him directly if he were guilty," she said, "and he frankly admitted the truth of the charge. I was greatly impressed by his frankness. We became engaged right away and were married yesterday."

The case against Weyman was continued.

ORDERS MINERS' RETURN

Lewis Tells 3488 Coal Strikers Their Walkout is Illegal and Cannot Be Continued

Indianapolis, Aug. 5.—Telegrams were sent to 33 local unions in Kansas by President John L. Lewis, of the United Mine Workers of America yesterday ordering them to return to work and end the strike which has been reported to international headquarters of the miners here.

According to reports received by President Lewis, 3488 miners are on a strike in 33 mines in the Kansas field.

In his telegram President Lewis declared the strikes were illegal and unauthorized and in violation of a contract between the United Mine Workers and the Southwestern Coal Operators' Association. The contract calls for settlement of all disputes by a joint board of adjustment and the men return to work and take up their grievances in the usual manner, Lewis said.

Lewis also sent a telegram to Alexander Howat, president of the Kansas miners, denouncing him for fostering the strike trouble. In his message Lewis declared the president of the Kansas miners has made no attempt to settle the strike in that State as provided in the contract with the operators, and he warns Howat that he must comply with the laws of the union.

WHEAT PRICES AT CHICAGO

Market Opens 8 to 13 Cents Below Previcus Day's Quotations, But Quickly Recovers Ground

Chicago, Aug. 5.—Excited general selling brought about a sensational smash in wheat price today. The market opened 8 to 13 cents lower, with December $2.16 to $2.21 and March $2.21. Most of the selling was said to come from country holders anxious to turn their wheat into cash. In a few minutes, however, the market bounded as much as 11 cents in some cases.

In some cases as much as 14 1-2 cents a bushel was temporarily cut from values, March delivery falling at one time to $2.18. Comparative steadiness, though, returned to the pit before the end of the first hour, with the market then about 4 1-2 to 5 1-2 cents under yesterday's finish.

LEPERS MAY BE CURED

Patients Show Improvement After Chamulga Oil Treatment

Boston, Aug. 5.—Examination of two patients at the State leper colony on Penikese Island who have been undergoing treatments with chamulga oil, a product of an East Indian fig tree has shown unusual progress toward recovery, but the men have not been wholly cured, according to a report of a special medical commission. Dr. M. Victor Sanford, chairman of the commission, said that tests had shown the presence of bacilli in the blood and the release of the patients was inadvisable at this time.

Medical experts throughout the country had been watching the progress of the treatment with much interest in the hope that a cure for leprosy had been discovered.

A parade was staged at 4.30 o'clock yesterday afternoon by the fire department and citizens in honor of the Virginia Shipbuilding Company's bid for the big government transport.

This company was the lowest out of seven bidders for the construction of the big steel transport having 10,000 tons displacement and the company expects to be awarded the contract within the new few days just as soon as the necessary papers are signed

The fire department turned out as did officials of the chamber of commerce, officials of the Shipbuilding Corporation and others.

A long line of automobiles followed the fire apparatus as they paraded up and down the streets.

Previous to the parade the fire engine bells and whistles of the city let loose and there was great jubilation.

As previously stated in The Gazette it will require sixteen months to build the big transport and this will mean the employment of several hundred additional hands at these yards which means more business for the merchants of the city.

CHORUS GIRL'S PLIGHT

Questioned on Sordid Tragedy, Faints at Sight of Husband.

New York, Aug. 5.—When "Ruth Jackson," a chorus girl held as a material witness in the death last Saturday of Dr. Jose Arenas, was taken from a hospital to be questioned by representatives of the District Attorney's office, she saw her husband. Louis Schultz, of Toledo, in the courtroom and fainted.

Her hearing was adjourned until today and she was rushed from the courtroom in a hysterical condition. She was slightly wounded in Dr. Arenas' apartment, when the dentist is alleged to have shot her and then killed himself.

Schultz, who announced he intended to stick to his wife "through thick and thin," said he had married her three years ago when she was Lula Ruth Nixon, of Columbus, O.

Last May, according to Schultz, his wife received a theatrical offer from New York and he permitted her to accept, thinking she "would get enough of it and get the theatrical bug out of her head." He said he heard nothing from her for months, and a month ago her mother made a trip to New York to find her daughter, but could get no trace of her.

During the last three weeks Schhultz declared he received letters from the girl in which she said she was "sick of it" and wanted to come back. In these letters he said she spoke of threats Arenas had made to kill her.

Bold Bandit

E. L. Dunton Chauffeur Has Narrow Escape From Reign of Bullets

Edward L. Dunton, about thirty years old, a chauffeur, who lives at 511 Oronoco street, reported to Sergt. W. J. Wilkinson at police headquarters shortly before 1 o'clock this morning that he had been held up by a negro bandid while on the Camp Humphreys road at 12:15 o'clock this morning and fired at four times, Two of the shots he told Sergt. Wilkinson took effect, one producing a slight wound in his arm and a second grazed his stomach and a third struck him over his vest pocket. The third shot probably would have proved fatal were it not for the effect that a silver half dollar in his vest pocket caused the bullet to deflect, and he produced the coin showing the impression left by the bullet when it struck. The fourth shot went wild.

The hold up took place near Woodlawn road several miles south of here as Dunton was returning to Alexandria. The highwayman commanded him to throw up his hands at the point of a pistol. Dunton had no weapon and stopped and suddenly started off his car and the highwayman fired the four shots in rapid succession as he sped towards this city. Dunton at once reported the affair to the police.

SABBATH SCHOOLS PLAN ATHLETICS

Organization on Sunday of Inter-Association School

OTHER FEATURES

Outgrowth of Athletic Meet Held at Fairfax July 24—To Enlist Those Between 16 and 24 Years Old

Alexandria district is to have an inter-association Sunday school athletic association. Secretary Wallace of the Alexandria Y. M. C. A. has just had a communication from Mrs. Cora M. Israel, of Fairfax, who is district superintendent of the intermediate division of the district, calling a meeting at the Westminster Building Sunday afternoon for the purpose of organization.

The determination of the intermediate division to organize an athletic association is the result of the splendid athletic meet held at Fairfax the 24th of July. It was evident at this meet that there was sufficient enthusiasm and real need for such an organization. The intermediate age is from 16 to 24 and it is generally agreed among Sunday school workers that this is the vital age in which to permanently enlist workers for the Sunday schools.

Mrs. Israel's idea is to make the organization rather elastic and it is thought that it will include other features beside athletics. She has asked that the musically inclined young people be invited and that possibly out of the association may come both a glee club and an orchestra.

The call is for all interested young people of the intermediate age in the Sunday schools of Alexandria, Arlington and Fairfax counties, and the meeting will be held at the Westminster Building Sunday afternoon, August 8, at 3 o'clock.

Washington, D. C., Aug. 5.—Japanese coolies migrating to South America and Mexico may be entering the United States by way of the Mexican border, said a statement yesterday by the Japanese Embassy, but after they land in the western hemisphere the Japanese Government has no means of knowing of their movements.

The statement was issued in connection with the announcement at Tacoma by Chairman Johnson, of the House of Representatives Immigration Sub-Committee, that an extensive scheme for smuggling Japanese coolies into California by way of Mexico had been unearthened. It said that it was not possible for any Japanese laborers to enter the United States directly from Japan or by way of Honolulu, because the Imperial Government was maintaining a strict surveillance over emigration and was living up to the Root-Takahira agreement.

FEARS FOR SUFFRAGE

Carrie Chapman Catt Appeals to Both Cox and Harding

Chattanooga, Tenn., Aug. 5.—Governor Cox and Senator Harding were informed yesterday by Mrs. Carrie Chapman Catt, president of the National American Woman Suffrage Association that there was a "very real and threatening danger" to the ratification of the suffrage amendment by the Tennessee Legislature.

Mrs. Catt telegraphed the nominees that "the tremendous effort being made by outsiders to persuade legislators not to act on the amendment at all under the pretense that it would be a violation of their oath to support the State Constitution" was responsible for the danger. She asserted that "outsiders are inspiring messages to you signed by Tennessee names asking you to keep hands off."

JOY IN THE AIR.

The announcement late yesterday afternoon that the Virginia Shipbuilding Corporation submitted the lowest bid for the construction of the transport "Heywood" sent a thrill of joy into every section of Alexandria.

The "Heywood" will be practically a sister ship to the army transport Henderson, which was constructed at the Philadelphia navy yards, and which transported thousands of troops during the war. The new vessel will be of about 10,000 tons displacement and 484 feet long. It was designed primarily for the purpose of transporting an expeditionary force of marines with full equipment.

During the past few months conditions at the plant of the Virginia Shipbuilding Corporation have not been of the animated nature of last year. While several hundred men have been kept at work, many others have at times been furloughed until further demands shall have been made upon the plant's capacity.

The last of the ten steel ships which are to be constructed under the terms of the company's first contract is approaching completion, and it was thought no augmentation of the present force would be made in the near furture. But the news that the Alexandria plant is the lowest bidder for the purposed mammoth transport reanimated the entire community when it was realized that hundreds of men are to be recalled, and had the news been made known at night the city would doubtless have been painted red. There was, however, general rejoicing, akin to that of nearly two years ago, when it became known that Germany had surrendered. Bells were rung and whistles shrieked, and there was an impromptu parade of our modern motorized fire apparatus. It seemed that every automobile in the city suddenly appeared upon the streets filled with merrymakers, young, old, male and female. The awarding of this colossal contract was the main subject of conversation until a late hour at night.

DECREASE IN TYPHOID CASES.

An old and constant reader of the Gazette, who in by-gone years was also a contributor, whose suggestions were ever practical, sends up the following extract from a Baltimore paper of April 14,1920:

"Indications for the spread of typhoid fever this year are far below those of 1919, both for Baltimore and the counties, according to Dr. John S Fulton, secretary of the State Board of Health. So far 28 cases and 7 deaths from the disease have been reported in Baltimore, with 52 cases and 8 deaths in the counties. The disease usually has its start about this time of year, said Dr. Fulton, increasing in June, July and August. In 1919 the cases to April numbered 144, with 32 deaths for Baltimore and the counties. Every year an expected average is figured and Baltimore is expected to have 375 cases with 62 deaths, with 1,236 cases and 166 deaths in the counties."

Our correspondent in referring to the above calls attention to the fact that the paper from which he quotes on August 1st stated, and one would suppose the results to be gratifying, the expected or estimated cases were only slightly over one half or about 58 per cent. Close readers of newspapers, as well as observant ones, have noted a falling off in typhoid fever cases, a most troublesome, if not so fatal a malady as pneumonia. Medical science, study, safeguards and antidotes bid fair to minimize, if not eradicate, typhoid fever. Pneumonia, however is still a something which has baffled our best efforts, and claims its tribute from young and old, strong and weak."

In this connection it is gratifying to note that August first found Alexandria with a clean bill of health, so far as typhoid fever is concerned.

A WORD FOR TOBACCO.

A writer in a Philadelphia paper says "the extermination of tobacco seems to be the chief object of active lady politicians and reformer of today. Either directly or indirectly they are interested in depriving man of the things he most desires. It is a known fact that tobacco is a wonderful preventive of many diseases, and was most effective during last winter as a foe to influenza. Then why not, ye citizens of the masculine variety propose and demand the extermination of powder, rouge and paint in any form when used to beautify one's face?

"What is so injurious in the use of tobacco anyway? Very old men who have used tobacco all their lives (some of whom reached 90)' say that it never hurt them that they knew of. Almost anything that one can mention is injurious is used to excess. If we are going to stop using everything that is injurious to the body just because it is not scientifically measured, we had better give up life altogether. These complaints against the abuse of the smoking privilege in public (published from time to time) are merely a camouflage for the agiation to prohibit the use of tobacco entirely by a constitional amendment."

PLEASANT AUGUST DAYS.

August is fitting by without a hot spot on the weather map of this section of the country, and with no hot wave headed this way or on the horizon. The thermometer marched sedately up from 61 degrees to 81 yesterday and then marched solemnly back toward 61. Breezes blew pleasantly, while clouds were few and far between.

Out in Phoenix, Ariz., there also is an unprecedented cool wave, as the thermometer reached only 100 degrees yesterday. Phoenix has been vieing with Yuma, where it is claimed the average temperature is 120 degrees, and is not far from Death Valley, where the mercury bulb has been known to explode in an effort to measure the heat.

WORK OF THE JUDICIARY.

Judges of the supreme court of appeals do not have plain and easy sailing when the courts are not in session suggests the Richmond Journal. "They are nearly always engaged in the reading of petitions for writs of error and supersedeas, appeals and the like, and these go from one judge to another before a final announcement is made as to the disposition of the papers presented to them. An idea of the amount of reading they have to do can be judged when it is known that the records in the cases often make more than 1,000 pages, this being in addition to the petitions which accompany the records. This work is for the entire court, and when they get a vacation they usually recuperate one at time."

LAWYER WAKED BY SNAKE

Four-Foot Reptile Crawls Over Sleeping Attorney.

Hyattsville, Md., Aug. 5.—Waking up in the dead of night to find a four-foot black snake crawling up his arm was the experience of C. A. M. Wells, 264 N street northwest Washington, a prominent lawyer, at his summer estate at Battle Creek a few nights ago.

The snake had slipped through the window near which Mr. Wells was sleeping. The Washington man jumped from bed and slammed down the window, catching the reptile underneath it.

But Mr. Well's troubles were not over. The next day the female partner of the dead snake came down the cottage chimney into the living room seeking vengeance for the slaughter of her spouse, members of the family believe.

She was first seen by the colored caretaker, who killed her.

Mayville, N. Y., Aug. 5.—Soon after retiring last night Mrs. Munroe Harrington, of Portage Road, felt something crawl over her body. Calling her husband, an inspection of the bed was made, revealing a black snake measuring four feet and four inches.

She was crossing the tracks with a suitcase when the locomotive struck her. Her skull was fractured. She never regained consciousness.

She was the mother of nine children, who survive her.

Mrs. Southern was coming to Martinsburg on a shopping trip.

There are now approximately 25,000 jobless in Berlin, the Commerce Department was advised yesterday from American Commissioners Dresel. Four thousand five hundred are women.

SPORTS

In a game on High School grounds last night the Hinky-Dinks were victorious in a nine inning game with the Baptist church nine by a two to one score.

Hayden was on the firing line for the winners and turned in a creditable game the entire team giving him perfect support.

After the first inning in which both teams counted once it was a pitchers battle until the sixth when the Hinky-Dinks uncorked their heavy artillery pushing across one man which proved to be enough to win.

The Dreadnought A. C. has arranged games for Friday, Saturday and Sunday of this week.

Friday the Red Cross team will be seen here, these Washington boys have a good team and are going on the field to win. The game will start at 5.15 sharp. Saturday the Peerless A. C. at 3.00 o'clock. The most important game of the trio is Sunday's contest with the Linworth A. C., that beat the "Knicks" and Fisher by a 5 to 3 score.

The locals have four pitchers to use in these contests Singleton, Quayle, Fraser or White.

The local management has arranged to have Dick Woodward here to umpire Sunday's game.

WETS KEEP UP FIGHT

Ask Supreme Court to Review Recent Prohibition Decisions.

Washington, D. C., Aug. 5.—Efforts to have the Supreme Court consider its decision of June 7 sustaining the validity of the Eighteenth amendment and portions of the prohibition enforcement act were made yesterday by some of the attorneys who appeared in the cases decided at that time. Petitions asking the Court to review the appeal of George C. Dempsey, Boston wholesaler, attacking the act were filed yesterday, while William D. Guthrie, attorney, of New York, has notified the Court that he will make a similar request in the case of Christian Feigenspan, brewer, of Newark, N. J.

In asking rehearing of the Oempsey case, the petition alleges that the Court's conclusions are "inconsistent and repugnant to each other" and "palpably incorrect to each other" and erroneous." Such requests seldom are granted by the Court.

PARIS TRUNK MYSTERY

Wife Alleged to Have Confessed Killing Husband in Argument.

Paris, Aug. 5.—Discovery at Nancy of a trunk containing the body of a man has led to an investigation resulting in identification of the victim as a freight agent named Bassarabo and the arrest of hs wife in Paris.

Mme. Bassarabo, according to the police, admitted having killed her husband in the course of an argument and having placed his body in the trunk, which was shipped to Nancy by a freight handler at the Eastern Railroad Station. A daughter, who was held as a witness, denied any knowledge of the crime.

FAIL TO PAY TAXES

Twenty Dog Owners of Fairfax County Summoned to Court

Fairfax county is having a dog show that is not advertised. The law provided that the tax on canines should be paid by May 1, but when it was discovered that the new law would work a hardship, and by general consent the time was extended to July 1, and by that time all dog owners were supposed to have paid their taxes. It appears that the commissioners of the revenue and the game wardens at once got busy, the result being that twenty persons have been asked to report to court to answer the charge of having failed to pay their dog taxes. It appears that among these is the attorney for the commonwealth, who is, or will be, among "those present" when the roll is called.

Chief Assistant Mack Hart, of the fish and game department, accompanied by an attorney, have gone to Fairfax to be on hand when the cases are called. The law imposes a fine of not less than $5 for each failure to pay the tax, and in addition the tax has to be paid.

"There are too many mashers on Broad street already. The police are trying to break them up, and it so happens that when the police in many instances tell them to move on they invariably go into a poolroom and come out as soon as the policeman has gone." Thus spoke Judge D. C. Richardson, of hustings court of Richmond yesterday in declining to grant a license to W. B. Blair to open a billiard and pool parlor at 703 East Broad street. Several merchants appeared in court to protest against the granting of the permit. Because of protest the court also turned down the application on Charles H. Cosby to open a similar establishment in the 500 block East Broad street.

The United States Shipping Board is gathering emergency wooden ships from all parts of the country into the James River, according to Admiral William S. Benson, chairman of the board, in order to effect a tremendous saving in their upkeep. Admiral Benson said yesterday that the 250 odd ships of the fleet still on the hands of the government are costing from $2,000 to $3,000 apiece each month. By keeping them in the James River, he said, they may be maintained for from $50 to $100 apiece each month until that day arrives when they can all be sold.

Loop, a typesetter, accused Lawrence Ferguson, a linotype operator, with insulting his wife and lunged at him with a knife. Loop's attack bore the younger man down. Reporters grabbed Loop before he had chance to stab Ferguson a second time. The knife hit a rib and the blade snapped Ferguson was not hurt seriously.

SAYS HE SLEW TEACHER

Negro Confesses Killing Gertrude Harrison Mann Here Last March

William Henry Campbell, colored, 22, of 5 Wiley court northwest, whose arrest was printed exclusively yesterday in the Washington Herald, last night confessed to the murder of Mrs. Gertrude Harrison Mann, Washington music teacher, whose mutilated body was found in a patch of woods just west of Connecticut avenue, near Porter and Rodman streets.

Campbell, arrested on a series of housebreaking charges, and now held at Precinct 10, signed a written confession in the presence of Maj. Harry L. Gessford, Lieut. Stoll and Precinct Detective Darnall, the work of Darnall resulting in the solution of the case.

Campbell, according to his confession, deliberately went to the scene of Mrs. Mann's murder last March for the purpose of attacking some woman and snatching her pocketbook. As he neared the spot where Mrs. Mann was killed, he picked up a heavy, well-tapered club which he found at a camp fire left by a construction gang.

He wrapped the clug in a newspaper and as Mrs. Mann passed, home ward bound from the house of a music pupil, he grabbed her around the neck from behind, at the same time striking her on the head with his cudgel.

When Mrs. Mann screamed, he struck her once more and she dropped to the ground unconscious.

Campbell says he then took her wrist watch and worked for 10 minutes tearing from the dead woman's fingers the ring which finally incriminated him and resulted last night in his confession.

COAL TO GO UP

New Freight Rates Will Advance Cost Says National Official

The American public will pay at least $75,000,000 a year more for its coal as a result of the increased freight rates granted to the railroads by the Interstate Commerce Commission.

George H. Cushing, director of the American Wholesale Coal Association said last night the rate increases will add $30,000,000 to the nation's soft coal bill and $45,000,000 for hard coal.

The increases will vary according to the distance the coal is hauled, as the freight charges constitute the chief factor in the cost of coal. The increased rates on soft coal, Mr. Cushing said, will range from 40 cents to $1.25 a ton, while on hard coal, which is hauled at higher rates, the increases will average about $1 a ton.

The increases cannot be pyramided in sales to dealers, he declared, because the freight rate is billed separately from the cost of the coal itself.

DESTROYERS AT MIAMI

Will Prevent Landing of Cable About to be Laid

Five destroyers are patroling the entrance to the Miami (Fla.) harbor under orders from President Wilson to prevent, by force, if necessary, the landing of a cable the Western Union Telegraph Company is having laid from Barbados, a British possession in the West Indies.

A British cable ship, the Colonia, has been chartered by the Western Union Company to land the American end of the cable which would connect with a British cable line from the Barbados to South America.

At the State Department it was stated yesterday that the British embassy has been asked to inform the master of the ship that such a landing would be in violation of American law.

BOYS' THROATS CUT

West Frankford, Ill., Aug. 5.—The bodies of Tony Hemphill, 17 and Amel Calcaterera, 14, who had been missing since Tuesday, were found in the woods near Royalton, Williamson county, yesterday, with their throats cut. Hemphill also had been shot.

Setino Desantis, West Frankfort, who had been arrested, suspected of kidnapping was charged with murder, following discovery of the bodies.

According to the authorities, he admits taking the boys to Royalton.

RAILROAD HEAD URGES CO-OPERATION OF EMPLOYEES

Fairfax Harrison, president of the Southern Railway System has sent the following to the employees of that railway.

"The tremendous increase of railroad rate authorized by the Interstate Commerce Commission seems to complete the circle of government management of the railroad industry. It was necessary to carry the scale of expenses set up by the Railroad administration, but it must cause grave concern as to its economic consequences. It now remains for private management to resume the practice of competitive efficiency and self reliant initiative which distinguished the American Railroads during so many years and to justify the preferences of the American people for that form of administration by making possible not only the success of individual companies and the property of their loyal employees, but a constant progress to the public, such as may be traced through the old fashioned railroad statistics. No one can expect this to be accomplished over night, considering the practical conditions, but a start can be made at once, relying on the co-operation and support of the employees, the management of Southern Railway System will make the effort."

SILK MILL IS CLOSED

Collapse of Values in Japan and Cancellation of Order Cause of Shut-Down.

Fredericksburg, Va., Aug. 4.—The silk mill in this city has temporarily suspended operations for a period, throwing out of employment about 100 people, both men and women. The mill is embraced in the properties of the Klots Throwing Company, a silk importing and manufacturing corporation, with fifteen plants in New England and the Middle Atlantic States and offices in Japan and China. The lack of sufficient assets in liquid form to meet demands and the collapse of silk values in Japan and cancellation of orders was given as the cause for the shut-down. The closing is considered as temporary.

Thorold, Ont., Aug. 5.—A workman on the Welland Canal yesterday found the body of 4-year-old Margaret Boucock, one of the two children who disappeared in May and July. The girl's clothing was torn and the body had been covered with weeds and tree branches. David MacNeil, formerly of Philadelphia, who was seen with the child shortly before she dropped out of sight, is still being held by the police. No trace has been found of Kathleen Beechman, 6 years old, the other missing child.

COX SENDS FORTH FIGHTING MESSAGE.

(Continued on Page Five)

have the faith in me that there will be triumph of right principles this fall, which will serve notice to Republican leaders for years to come. I was about to say that it would be a Democratic triumph. It will not be that. It will not a victory in the partisan sense. It will be a triumph of the right."

Turning upon his opponents, the Governor continued:

"We've won before in the same kind of a fight. We'll win again because we're right.

"The opposition has been good to us, and the advantages that it has given will be recounted in the stirring days ahead of us. The opposition apparently has adopted the ccurse of doing what we farmers used to do—of ploughing around the stump or seeking to avoid the things that perplex.

"It is, with the opposition, expediency pure and simple. They attempt to appeal to this group, that group and ether groups without the slightest consideration of the great menace thereby to the perpetuity of our Government. Our course is the straight course."

MOVIES

RICHMOND—Marguerite Clark.

That delightful little person of the screen, Marguerite Clark, is at the Richmond Theatre today in a photo-comedy, "A Girl Named Mary." It is a pleasant, heart-warming story with a true-to-life bit of girl-psychology intermingled.

Miss Clark, the cheery body who has been at her task of making the world a trifle gayer ever since the movies first started moving, has a characteristic vehicle this time. The original is by Juliet Wilbor Tompkins and we believe it has had somewhat of a career both as a magazine serial and a book. It is as bright a bundle of sunshine as we remember seeing in a long time.

If you are looking for something more than entertainment, you might quite correctly say that "A Girl Named Mary" is an interesting angle on the much mooted question of heredity and environment as well as a good story well filmed.

INGOMAR—Bessie Barriscale.

"Life's Twist," the Robertson-Cole Special which will be seen at the Ingomar Theatre, starting today, has been called Bessie Barriscale's best picture. It deals with the adventures in love of two women, one the pampered daughter of fortune, the other the undeveloped, ragged product of a great city's squalor. Both types, extreme in contrast, are interpreted by Miss Barriscale in maserly fashion, according to the reviewers.

BLOODY DEED OF LOVER

Rejected Suitor Shoots Witchita Woman at Cathedral Door.

Witchita, Kann., Aug. 5.—An unrequited love found expression here in a murder Sunday.

Miss Carrie Cunningham, 26 years old, a student, was shot and fatally wounded by Theodore Osweiler, Jr., a banker Shulte, Kan., and for a former suitor. The shooting occured on the steps of St. Mary's Cathedral as the girl entered to attend mass. The bullet entered her shoulder above the heart and she died Wednesday.

Osweiler said he had been a suitor of the girl for two years. A year ago Miss Cunningham had broken the engagement, he said. He expressed no remorse at the fatal shooting. Osweiler is cashier at the Shulte National Bank. He studied for the priesthood at St. Benedict's College in Atchison, Kan., and in St. Paul, Minn., but served his relations with the Catholic Church several years ago.

Good Light Lightens Labor : :

Lighting the kitchen is like lighting a factory. Good lighting quickens production, as the factory man would say. In other words, it makes work go faster without the expenditure of any more energy.

Of all places needing more light and better light the kitchen in most homes is one of the most important. And when you have doubled or trebled the light in your **work** rooms, try it also in your **living** rooms.

If you find that doubling or trebling the illumination there mean glaring light, **don't** cut down the amount of lighting again—**shade** the light better! Keep the direct rays from striking the eye. Throw some of the light to the ceiling and walls.

In every socket—in every room from cellar to garret—use only
EDISON MAZDA LAMPS

If you will do that, you will find that a great deal more light in the room is decorative, pleasing and restful. It's not the amount of LIGHT that you find irritating in some rooms, but the amount of GLARE.

OUR METER MEN REPORT THAT A NUMBER OF OUR CUSTOMERS ARE USING CARBON LAMPS. WHY NOT BE UP TO DATE? USE MAZDA LAMPS—BETTER LIGHT—LOWER BILLS.
